Plastic ash urn liner bags are available for \$70 per 100.

### Presentation Boxes - AU1110G

Presentation boxes suitable for Plastic Granite Urn.

Available in Green, Maroon and Blue.

### Urn Bags - AUPM

Available in Red and Dark Blue.

### Carry Bags - AU1200

Available in White and Black.

## ASH URN SUPPLIES

### Tolad - A701

The TOLAD is a hiking staff filled with your loved one's ashes. With each step, a small amount of ashes is released from the lower end of the staff. As a result, it is possible to scatter ashes gradually while taking a walk.

This method is subtle, dignified, and safe under any weather conditions.

Available in two options, Wood or Forest prints.

### Eco Scattering - (0.8) AU300, (1.6) AU301, (3.0) AU302

The Eco-Scattering Urn from Eco Urns is eco-friendly and all natural. Made from bamboo, a sustainable resource, and the open/closed locking top allows families to transport ashes safely and scatter them without the risk of spilling.

Available in 0.8L, 1.6L, or 3L sizes.

### The Living Urn - AU304

Designed to grow a beautiful, enduring memory tree, plant, or flowers with cremated remains. Place your loved one's cremated remains in the Urn and add the ash neutralising agent on top. Place the young tree, add soil and plant it in the ground.

A beautiful, enduring living memorial will then grow up from the urn and the cremated remains to keep your loved one's memory present in your life!
