**LIVING
MEMORY**

WHAT IS THE LIVING URN®?

The Living Urn® is America's first and leading Bio Urn & Planting System designed to grow a beautiful, enduring memory tree, plant, or flowers with cremated remains! Honour a loved one when they pass on and celebrate and commemorate all they've given us - the joy, the companionship, the love - and keep their memory present in our lives! Give back and grow a living memory with The Living Urn®...

WHAT'S INCLUDED?

- Our Patent Pending BioUrn®
- RootProtect®, Ash Agent (counters natural properties of cremated remains that can make the growing environment hard on a young tree)
- Beautiful Handmade Bamboo Planting Urn Case
- Planting Instructions

WE'VE SPENT YEARS WORKING WITH LEADING SOIL SCIENTINSTS AND ABSORPTIONISTS TO DEVELOP THE MOST ADVANCED BIO URN AND PLANTING SYSTEM ON THE MARKET TODAY...

Place your loved one's cremated remains in the BioUrn® and add RootProtect® ash neutralising agent on top. Next, place the young tree, add soil and plant it in the ground. A beautiful, enduring living memorial will then grow up from the urn and the cremated remains to keep your loved one's memory present in your life!

**THE PATENT PENDING ECO SCATTERING™
URN HAS QUICKLY BECOME THE LEADING
NEW SCATTERING URN ON THE MARKET:**

- Eco-friendly & all natural
- Made from bamboo, a sustainable resource
- Proprietary open/close locking top (no hardware!) allows families to:
 - Transport ashes safely; and
 - Scatter with control without the risk of spilling!
