- : Danger
- : H226 Flammable liquid and vapor
- H302 Harmful if swallowed
- H314 Causes severe skin burns and eye damage
- H317 May cause an allergic skin reaction
- H318 Causes serious eye damage
- H331 Toxic if inhaled
- H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled
- H335 May cause respiratory irritation
- H341 Suspected of causing genetic defects (inhalation, oral, dermal)
- H371 May cause damage to organs (kidney, liver, skin and nervous system)
- H373 May cause damage to organs through prolonged or repeated exposure
- : P201 Obtain special instructions before use
 - P202 Do not handle until all safety precautions have been read and understood
 - P210 Keep away from heat, sparks, open flames, hot surfaces. No smoking
 - P233 Keep container tightly closed
 - P240 Ground container and receiving equipment

Signal word (GHS-US)

Hazard statements (GHS-US)

Precautionary statements (GHS-US)

Safety Data Sheet according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

| | P241 - Use explosion-proof electrical, ventilating, lighting, and equipment |
|---------------|---|
| | P242 - Use only non-sparking tools |
| | P243 - Take precautionary measures against static discharge |
| | P260 - Do not breathe dust, fume, mist, spray, vapors |
| | P261 - Avoid breathing dust, fume, mist, spray, vapors |
| | P264 - Wash hands thoroughly after handling |
| | P270 - Do not eat, drink or smoke when using this product |
| | P271 - Use only in a well-ventilated area |
| | P272 - Contaminated work clothing must not be allowed out of the workplace |
| | P280 - Wear protective clothing, protective gloves, eye protection, face protection |
| | P285 - In case of inadequate ventilation wear respiratory protection |
| | P301+P312 - If swallowed: Call a POISON CENTER |
| | P301+P330+P331 - If swallowed: rinse mouth. Do NOT induce vomiting |
| | P302+P352 - If on skin: Wash with plenty of water |
| | P303+P361+P353 - If on skin (or hair): Take off immediately all contaminated clothing. Rinse |
| | skin with water |
| | P304+P340 - If inhaled: Remove person to fresh air and keep comfortable for breathing |
| | P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact |
| | lenses, if present and easy to do. Continue rinsing |
| | P308+P313 - If exposed or concerned: Get medical attention |
| | P310 - Immediately call a doctor |
| | P311 - Call a doctor |
| | P312 - Call a POISON CENTER |
| | P314 - Get medical attention if you feel unwell |
| | P330 - Rinse mouth |
| | P333+P313 - If skin irritation or rash occurs: Get medical attention |
| | P342+P311 - If experiencing respiratory symptoms: Call a doctor |
| | P362 - Take off contaminated clothing and wash before reuse |
| | P363 - Wash contaminated clothing before reuse |
| | P370+P378 - In case of fire: Use alcohol resistant foam, dry powder, carbon dioxide (CO2) to |
| | extinguish |
| | P403+P233 - Store in a well-ventilated place. Keep container tightly closed |
| | P403+P235 - Store in a well-ventilated place. Keep cool |
| | P405 - Store locked up |
| | P501 - Dispose of contents and container to comply with applicable local, state, national and |
| | international regulation. |
| | |
| | |
| Other hazards | |

2.3. Other hazards

No additional information available

2.4. Unknown acute toxicity (GHS-US)

No data available

SECTION 3: Composition/information on ingredients

3.1. Substance

Not applicable

3.2. **Mixture**

| Name | Product identifier | % | GHS-US classification |

| SECTION 4: First aid measures | |
|--|---|
| 4.1. Description of first aid measures | |
| First-aid measures general | : Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible). Call a doctor. |
| First-aid measures after inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Keep victim warm and rested. Immediately call a doctor. Seek medical attention immediately. If breathing stops, give artificial respiration. Transfer to hospital rapidly. |
| First-aid measures after skin contact | : Wash immediately with lots of water (15 minutes)/shower. Remove all contaminated clothing and footwear. Seek medical attention immediately. |
| First-aid measures after eye contact | In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. Seek medical attention immediately. Transport to hospital. |
| First-aid measures after ingestion | : Immediately call a POISON CENTER. If swallowed, rinse mouth with water (only if the person is conscious). Do NOT induce vomiting unless directed to do so by a physician. Take immediately victim to hospital. Seek medical advice (show the label where possible). |
| 4.2. Most important symptoms and eff | ects, both acute and delayed |
| Symptoms/injuries | Causes severe skin burns and eye damage. Suspected of causing genetic defects (inhalation, oral, dermal). May cause damage to organs (kidney, liver, skin and nervous system) through prolonged or repeated exposure. |
| Symptoms/injuries after inhalation | : Toxic if inhaled. Danger of serious damage to health by prolonged exposure through inhalation. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause respiratory irritation. Difficulty breathing and tightness in the chest. Burning in the nasal passage. |
| Symptoms/injuries after skin contact | : May cause an allergic skin reaction. Repeated exposure to this material can result in absorption through skin causing significant health hazard. Contains phenol. Strong skin absorption as main danger of phenol poisoning at the workplace with paralysis of th central nervous system (with lethal consiquences in severe cases) as well as liver and kidney damage. Phenol destroys the nerve endings in the skin. Therefore absence of pain does not necessarily mean the skin has been properly decontaminated. |
| Symptoms/injuries after eye contact | : Causes serious eye damage. Can cause blindness. |
| Symptoms/injuries after ingestion | : Harmful if swallowed. Swallowing a small quantity of this material will result in serious health hazard. Ingestion may cause immediate pain and severe burns of the mucous membranes Ingestion may cause nausea, vomiting and diarrhea. Swallowing can cause severe injury leading to death. This material contains methanol, which, when ingested, has cards acidosis, ocular toxicity ranging from diminished visual capacity to complete blindness, and death. |

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

| SECTION 5: Firefighting measures | |
|--|--|
| 5.1. Extinguishing media | |
| Suitable extinguishing media | : Alcohol resistant foam. Dry powder. Carbon dioxide. Water spray. |
| Unsuitable extinguishing media | : Do not use a water jet since it may cause the fire to spread. |
| 5.2. Special hazards arising from the su | bstance or mixture |
| Fire hazard | : Flammable liquid and vapor. |
| Explosion hazard | May form flammable/explosive vapor-air mixture. Vapor heavier than air may travel considerable distance to a source of ignition and flash back. Heating will cause pressure rise with risk of bursting and subsequent explosion. |
| Reactivity | : Thermal decomposition generates : Corrosive vapors. |

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

| 5.3. Advice for firefighters | | |
|---|---|--|
| Firefighting instructions | Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment. Prevent runoff from entering drains, sewers or waterways. | |
| Protective equipment for firefighters | : Do not enter fire area without proper protective equipment, including respiratory protection. | |
| Other information | : Combustible liquid. Flammable liquid and vapor. Heat may build pressure, rupturing containers, spreading fire and increasing risk of burns and injuries. Use water spray unopened containers. Move undamaged containers from immediate hazard area if it can b safely. On burning: release of toxic/corrosive/combustible gases/vapors. In presence of heat may generate acrid fumes . Formaldehyde. unburned hydrocarbons. carbon oxides (CO2). Most vapors are heavier than air. They will spread along ground and collect in confined areas (sewers, basements, tanks). Vapors are heavier than air and may considerable distance to an ignition source and flash back to source of vapors. Alcohols bu a pale blue flame which may be extremely hard to see under normal lighting conditions. Per may be able to feel the heat of the fire without seeing flames. Extreme caution must be extended to fire s. | |
| SECTION 6: Accidental release | | |
| 6.1. Personal precautions, protect | ive equipment and emergency procedures | |
| General measures | Eliminate all ignition sources if safe to do so. Use special care to avoid static electric charges. No open flames. No smoking. Stop leak if safe to do so. Special danger of slipping by leaking/spilling product. Avoid contact with skin, eyes and clothing. Avoid breathing mist or vapor. | |
| 6.1.1. For non-emergency personne | l de la construcción de la constru | |
| Protective equipment | : Wear suitable protective clothing. For further information refer to section 8: "Exposure controls/personal protection". | |
| Emergency procedures | : Evacuate unnecessary personnel. | |
| 6.1.2. For emergency responders | | |
| Protective equipment | : Equip cleanup crew with proper protection. Avoid breathing mist or vapor. | |
| Emergency procedures | : Ventilate area. | |
| 6.2. Environmental precautions | | |
| Prevent entry to sewers and public waters | . Notify authorities if liquid enters sewers or public waters. | |
| 6.3. Methods and material for con | tainment and cleaning up | |
| Methods for cleaning up | : Keep upwind of the spilled material and isolate exposure . Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Gather the product and place it in a spare container that has been suitably labelled. Store away from other materials. Contain large spillage with sand or earth. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Wear proper protective equipment. Do NOT touch spilled material. Cleanup personnel must be trained in the safe handling of this product. If possible ventilate area by means of non-sparking, grounded ventilation system. Spills may be absorbed on non-reactive absorbents such as vermiculite. Place cells into individual plastic bags and then place into appropriate container and cleanup personal must be trained in the safe handling of the place cells into individual plastic bags and then place into appropriate container and cleanup personal must be the safe and the place cells into individual plastic bags and then place into approximate container and cleanup personal must be that cleanup personal must be the place cells into individual plastic bags and then place into approximate container and cleanup personal must be that cleanup personal must be that cleanup personal must be the place cells into individual plastic bags and then place into approximate container and cleanup personal must be that cleanup personal must be that cleanup personal must be the place cells into individual plastic bags and then place into approximate container and cleanup personal must be that cleanup personal must be that cleanup personal must be approximated to approximate container and cleanup personal must be that cleanup personal must be that cleanup personal must be the place cells into individual plastic bags and the place cells place cells into individual place that cleanup personal must be the place cells pl | |

6.4. Reference to other sections

See Heading 8. Exposure controls and personal protection.

| SECTION 7: Handling and storage | |
|------------------------------------|--|
| 7.1. Precautions for safe handling | |
| Additional hazards when processed | : Handle empty containers with care because residual vapors are flammable. |
| Precautions for safe handling | : Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Provide good ventilation in process area to prevent formation of vapor. No open flames. No smoking. Take precautionary measures against static discharge. Use only non-sparking tools. Work in a well-ventilated area. Use personal protective equipment as required. Avoid breathing dust, fume, mist, spray, vapors. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Before entering storage tanks and commencing any operation in a confined area check the atmosphere for oxygen content and flammability Keep away from clothing as well as other incompatible materials. Avoid contact with skin, eyes and clothing. |

Consult the appropriate authorities about waste disposal.

appropriate containers and close tightly for disposal. Ensure that cleanup procedures do not expose spilled material to any moisture. Immediately transport closed containers outside. Eliminate all sources of ignition, avoid sparks, flames and do not smoke in risk area. Incinerate, dispose in sanitary landfill - if permitted. Ensure all national and local regulations are observed.

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

| Hygiene measures | : Do not eat, drink or smoke when using this product. Handle in accordance with good industrial hygiene and safety practices. Wash contaminated clothing before reuse. Contaminated work clothing should not be allowed out of the workplace. Discard contaminated leather articles. |
|-------------------------------------|--|
| 7.2. Conditions for safe storage | including any incompatibilities |
| Technical measures | : A washing facility for eye and skin cleaning purposes should be present. Ensure adequate ventilation. Proper grounding procedures to avoid static electricity should be followed. Ground container and receiving equipment. Use explosion-proof electrical, ventilating, lighting, and equipment. Comply with applicable regulations. |
| Storage conditions | Protect containers against physical damage. Keep container tightly closed. Keep only in the original container in a cool, well ventilated place. Store away from direct sunlight or other heat sources. |
| Incompatible materials | : Strong acids, bases. Oxidizing agents. |
| 7.3. Specific end use(s) | |
| No additional information available | |

No additional information available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

| Methyl alcohol (67-56-1) | | |
|--------------------------|------------------------|-----------------------|
| USA ACGIH | ACGIH TWA (ppm) | 200 ppm |
| USA ACGIH | ACGIH STEL (ppm) | 250 ppm |
| USA OSHA | OSHA PEL (TWA) (mg/m³) | 260 mg/m ³ |
| USA OSHA | OSHA PEL (TWA) (ppm) | 200 ppm |

| Glutaraldehyde (111-30-8) | | | | |
|---------------------------|-------------------------------------|--------------------------------------|--|--|
| USA ACGIH | ACGIH Ceiling (ppm) | 0.05 ppm (activated and inactivated) | | |
| | | | | |
| Phenol (108-95-2) | Phenol (108-95-2) | | | |
| USA ACGIH | ACGIH TWA (ppm) | 5 ppm | | |
| USA OSHA | OSHA PEL (TWA) (mg/m ³) | 19 mg/m³ | | |
| USA OSHA | OSHA PEL (TWA) (ppm) | 5 ppm | | |

| Glyoxal (107-22-2) | | |
|--------------------|-------------------|--|
| USA ACGIH | ACGIH TWA (mg/m³) | 0.1 mg/m ³ (inhalable fraction and vapor) |

| Ethylene glycol (107-21-1) | | |
|-----------------------------------|---|--------------------------------------|
| USA ACGIH | ACGIH Ceiling (mg/m³) | 100 mg/m ³ (aerosol only) |
| Isopropyl alcohol (67-63-0) | | |
| ACGIH | ACGIH TWA (ppm) | 200 ppm |
| ACGIH | ACGIH STEL (ppm) | 400 ppm |
| OSHA | OSHA PEL (TWA) (mg/m ³) 980 mg/m ³ | |
| OSHA OSHA PEL (TWA) (ppm) 400 ppm | | 400 ppm |

| 8.2. | Exposure controls | |
|-------|------------------------------|---|
| Appro | opriate engineering controls | : Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Provide adequate ventilation. Monitoring the effectiveness of engineering control is recommended. |
| Perso | onal protective equipment | Avoid all unnecessary exposure. Wear protective clothing, protective gloves, eye protection/goggles, face protection. For certain operations, additional Personal Protection Equipment (PPE) may be required. |
| Hand | I protection | : Wear impermeable protective nitrile gloves. The quality of the protective gloves resistant to chemicals must be chosen as a function of the specific working place concentration and quantity of hazardous substances. |
| Eye p | protection | Contact lenses should not be worn. Chemical goggles and face shields are required to prevent potential eye contact, irritation or injury. |
| Skin | and body protection | : Long sleeved protective clothing. Overall. Rubber apron, boots. safety foot-wear. |
| Febru | ary 2023 | EN (English) 5/14 |

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

| Respiratory protection | : In case of insufficient ventilation. Wear suitable respiratory equipment. Approved organic vapor respirator. | |
|---------------------------------|--|--|
| Environmental exposure controls | : Avoid discharge to the environment. | |
| Other information | : Do not eat, drink or smoke during use. | |

SECTION 9: Physical and chemical properties

VOC content

: 25% (Percent volatiles - with heat)

SECTION 10: Stability and reactivity

10.1. Reactivity

Thermal decomposition generates : Corrosive vapors.

10.2. Chemical stability

Stable under normal conditions. Unstable on exposure to heat. Highly flammable liquid and vapor. Explosive vapor/air mixtures may be formed.

10.3. Possibility of hazardous reactions

Not established.

10.4. Conditions to avoid

Direct sunlight. Extremely high or low temperatures. Open flame. Overheating. Heat. Sparks.

10.5. Incompatible materials

Strong acids. strong bases. Oxidizing agents.

10.6. Hazardous decomposition products

Fume. Carbon monoxide. Carbon dioxide. May release flammable gases. Thermal decomposition generates : Corrosive vapors.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Safety Data Sheet according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

| Acute toxicity | : Harmful if swallowed. Toxic if inhaled. |
|------------------------------|---|
| Methyl alcohol (67-56-1) | |
| LC50 inhalation rat (ppm) | 22500 ppm (Exposure time: 8 h) |
| ATE US (oral) | 100.0000000 mg/kg bodyweight |
| ATE US (dermal) | 300.0000000 mg/kg bodyweight |
| ATE US (vapors) | 3.0000000 mg/l/4h |
| Glutaraldehyde (111-30-8) | |
| LD50 oral rat | 252 mg/kg |
| LD50 dermal rabbit | 560 μl/kg |
| LC50 inhalation rat (mg/l) | 0.1 mg/l/4h |
| ATE US (oral) | 252.0000000 mg/kg bodyweight |
| ATE US (vapors) | 0.1000000 mg/l/4h |
| ATE US (dust,mist) | 0.1000000 mg/l/4h |
| Phenol (108-95-2) | |
| LD50 dermal rat | 525 |
| LD50 dermal rabbit | 630 mg/kg |
| ATE US (oral) | 100.0000000 mg/kg bodyweight |
| ATE US (dermal) | 630.0000000 mg/kg bodyweight |
| ATE US (gases) | 700.0000000 ppmv/4h |
| ATE US (vapors) | 3.0000000 mg/l/4h |
| ATE US (dust,mist) | 0.5000000 mg/l/4h |
| Glyoxal (107-22-2) | |
| LD50 oral rat | 3300 mg/kg |
| LD50 dermal rabbit | > 800 mg/kg |
| LC50 inhalation rat (mg/l) | 2.44 mg/l/4h |
| ATE US (oral) | 3300.0000000 mg/kg bodyweight |
| ATE US (gases) | 4500.0000000 ppmv/4h |
| ATE US (vapors) | 2.4400000 mg/l/4h |
| ATE US (dust,mist) | 2.44000000 mg/l/4h |
| Methyl salicylate (119-36-8) | |
| LD50 oral rat | 887 mg/kg |
| LD50 dermal rabbit | > 5000 mg/kg |
| ATE US (oral) | 887.0000000 mg/kg bodyweight |
| Ethylene glycol (107-21-1) | |
| LD50 oral rat | 4000 - 10200 mg/kg |
| LD50 dermal rat | 10600 mg/kg |
| ATE US (oral) | 500.0000000 mg/kg bodyweight |
| | |

| Isopropyl alcohol (67-63-0) | |
|-----------------------------------|---|
| LD50 oral rat | 1870 mg/kg |
| LD50 dermal rabbit | 4059 mg/kg |
| LC50 inhalation rat (mg/l) | 72600 mg/m ³ (Exposure time: 4 h) |
| ATE US (oral) | 4396.000 mg/kg bodyweight |
| ATE US (dermal) | 12800.000 mg/kg bodyweight |
| | |
| Skin corrosion/irritation | : Causes severe skin burns and eye damage. |
| Serious eye damage/irritation | : Causes serious eye damage. |
| Respiratory or skin sensitisation | : May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. |
| Germ cell mutagenicity | : Suspected of causing genetic defects (Inhalation, oral, Dermal). |
| Carcinogenicity | : Not classified |
| | (Based on available data, the classification criteria are not met) |

Safety Data Sheet

according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

| Phenol (108-95-2) | | |
|--|---|--|
| IARC group | 3 - Not classifiable | |
| Isopropyl alcohol (67-63-0) | | |
| IARC group | 3 - Not classifiable | |
| Reproductive toxicity | : Not classified | |
| Specific target organ toxicity (single exposure) | (Based on available data, the classification criteria are not met) May cause respiratory irritation. May cause damage to organs (kidney, liver, skin and nervous system). | |
| Specific target organ toxicity (repeated exposure) | : May cause damage to organs through prolonged or repeated exposure. | |
| Aspiration hazard | : Not classified (Based on available data, the classification criteria are not met) | |
| Potential Adverse human health effects and symptoms | : Based on available data, the classification criteria are not met. Harmful if inhaled. Toxic if swallowed. Toxic in contact with skin. | |
| Symptoms/injuries after inhalation | : Toxic if inhaled. Danger of serious damage to health by prolonged exposure through inhalation. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause respiratory irritation. Difficulty breathing and tightness in the chest. Burning in the nasal passage. | |
| Symptoms/injuries after skin contact | : May cause an allergic skin reaction. Repeated exposure to this material can result in absorption through skin causing significant health hazard. Strong skin absorption as main danger of phenol poisoning at the workplace with paralysis of th central nervous system (with lethal consiquences in severe cases) as well as liver and kidney damage. Phenol destroys the nerve endings in the skin. Therefore absence of pain does not necessarily mean the skin has been properly decontaminated. | |
| Symptoms/injuries after eye contact | : Causes serious eye damage. Can cause blindness. | |
| Symptoms/injuries after ingestion | : Harmful if swallowed. Swallowing a small quantity of this material will result in serious health hazard. Ingestion may cause immediate pain and severe burns of the mucous membranes. Ingestion may cause nausea, vomiting and diarrhea. Swallowing can cause severe injury leading to death. This material contains methanol, which, when ingested, has cards acidosis, ocular toxicity ranging from diminished visual capacity to complete blindness, and death. | |
